

# Curriculum Statement

## Elveden Cof E Primary Academy

At Elveden Cof E Primary Academy we follow a creative curriculum, integrating learning through a range of topics that meet the requirements of the 2014 National Curriculum. We use every opportunity to write across the curriculum and to use and apply mathematical skills as appropriate.

Key skills and the differentiated teaching of Literacy and Mathematics are taught as discrete subjects.

Using a topic approach has the additional advantages of:

- Allows us to cover a broader range of skills by teaching more than one subject at once.
- Makes connections between different subjects explicit.
- Motivates children and helps to sustain interest.
- Enables genuine use of different text types explore further in a real context.

Our Topics are carefully planned covering knowledge and skills at the appropriate level for each year group and cover a differentiated curriculum to help meet the needs and interests of the children.

Religious Education is a core subject which is central to the life of the Church of England school. We promote Christian values and these remain at the heart of our ethos: creativity; forgiveness; hope; justice; perseverance; respect; truth; compassion, courage, peace; thankfulness; generosity; humility; wisdom.
