## Children's Experience

Lexia Reading Core5® covers the six areas of reading instruction. This begins with oral language and listening comprehension, building to reading comprehension. Children can complete sections in any order but need to complete all sections before moving onto the next level.

AREA OF READING INSTRUCTION AND SKILLS

 Phonological Awareness	 Phonics / PA	 Structural Analysis	 Automaticity/ Fluency	 Vocabulary	 Comprehension

### Key message!

- It is important that if children get stuck, they attempt questions **independently**. This is the only way the programme can personalise the questions for them and send the information to their class teacher.
- Parents, please only help them with the technical aspects such as where to click with the mouse and how to navigate the program.
- The children need to be able to continue using the programme in school so we need the level to be accurate to support them.
- The program will aid them and give them 'Guided Practice' and then 'Direct Instruction' if they are struggling and this will be followed up in school with Lexia lessons.

## Rewards

- Lexia notifies teachers when each child achieves a certificate.
- Children are rewarded with certificates in assembly when they pass each level.

---

## Information for Teachers

**Skills progress:** What can the children do? What are they struggling with? How much support do they need?

**Predictors:** Will pupils meet end of year expectations?

**Usage:** How much time do children spend on Lexia and what impact is it having?
