Page 1 of 30 2020-11-05

RISK ASSESSMENT / CHECKLIST FOR FULL OPENING OF ALL SCHOOLS IN SEPTEMBER 2020 (Revised Jan 2021)

General notes including completion guidance:

- This form is intended to support all schools (including Alternative Provision, Pupil Referral Units and Special Schools) to prepare for their full opening in September 2020 with amendments made as guidance changes. This is in relation to the Government's plan for all pupils to return in the autumn term.
- This Risk Assessment / checklist should be used, added to, and modified to suit your school or setting. You may need to adapt this to your own context and school, including adding further measures and mitigations. You should fill in the blanks as appropriate and ensure any dates for action are completed. Please do not forget that you may need to add in additional points which are specific to your setting. The Word document will expand to enable this.
- The format of this risk assessment should be familiar to you, as it is no different to the format you will have used when thinking about re-opening for fewer pupils, or when wider-opening.
- This risk assessment will complement the previous assessment you undertook in the summer term 2020. Some items **may** be the same but now have new implications in terms of more personnel on site so your controls will have changed. Some items may qualify the work already done and new items (if relevant) may override previous Government guidance and therefore needs addressing again. The majority of the previous assessment still stands and therein lies the importance of a regular review.
- The form is a series of **positive** statements reflecting the safety of personnel in a school where full opening is planned in September 2020. Against each statement, you need to tick either 'yes' or 'no/NA'.
- If you answer 'no' to a statement, you need to either complete that point by putting in measures to meet the standard **OR** note why you cannot do that. If it is not applicable, please note why.
- The new Government guidance, **published 5th November**, has been followed in terms of risk identification and each section is noted in the first column. **The actions that school leaders should take to minimise the risk of transmission in schools is Public Health advice, endorsed by Public Health England.**
- In addition to the statements within the assessment there is a list of further planning considerations available on Suffolk Learning (COVID-19 Health & Safety pages) at https://www.suffolklearning.co.uk/leadership-staff-development/health-safety-wellbeing/coronavirus:-covid-19 please note, not all these are strictly 'H&S' but may assist when thinking about general risk.
- All efforts have been made to ensure this document is up to date (as of the date within the header) but due to this evolving situation, please do ensure you keep a watchful eye on the Gov.UK website, Suffolk Headlines and Suffolk Learning, for any new measures required.
- Further guidance on risk assessments in general can be found on Suffolk Learning and the Health and Safety Executive (HSE) website all weblinks are at the end of this document. Sources are cited.
- There are some areas which point to other forms, such as your Fire Logbook, the Asbestos Management Plan, your Water Hygiene Risk Assessment, etc. It is imperative that ALL these areas are reviewed.
- Each main section has been given a header number and the standards are numbered within the section. When you note your additional controls needed **OR** note that you cannot meet the standard, you can mirror the numbers in the second column so it makes it clear for you.
- You **must** consult with your staff, your Governing Body / Management Committee during the assessment process and you **must** share the completed assessment with them. Ensure that you make the assessment readily available to Union representatives and parents / carers.

■ The Government Guidance stipulates that:

"The measures set out in this guidance provide a framework for school leaders to put in place proportionate protective measures for children and staff, which also ensure that all pupils receive a high quality education that enables them to thrive and progress. In welcoming all children back this autumn, schools will be asked to minimise the number of contacts that a pupil has during the school day **as part** of implementing the system of controls (outlined below) to reduce the risk of transmission. If schools follow the guidance set out here, they can be confident they are managing risk effectively." https://www.gov.uk/government/publications/actions-for-schools-during-the-coronavirus-outbreak/guidance-for-full-opening-schools

RISK ASSESSMENT / CHECKLIST FOR FULL OPENING – January 2021

Date of	1 st January 2021	Assessed by				
assessment:		(job title / name):	Headteacher: Lorna Rourke			
Local reference number:	Version 9	Other people involved with this assessment:	Headteacher: April Grimes SLT			
Name and address of school:	Elveden C of E Primary Academy London road Thetford Norfolk IP24 3TN	Reason for assessment:	The Government's requirement that there is a full opening of the school in September 2020 during the COVID-19 situation. On our return on January 4 th , the school is in a Tier 4 area and all stakeholders must be aware of and protected of the increased risk of infection. We will be open for keyworker and vulnerable children until 18 th January when this will be reviewed.			
Identification of those at risk:	 Students Their family groups Staff Their family groups Contractors and essential visitors 					
Harm which could occur:	Their family groups Catching or spreading the COVID-19 virus. This is a virus which has serious effects which debilitates those who have caught it and causes immense distress both physically and mentally. The UK has suffered huge fatality rates. Infection may happen through contact with someone with a confirmed case of COVID-19, potentially through touching a contaminated surface, and those who have been notified by a Public Health Agency that due to previous contact with a diagnosed case they are open to exposure. Categories of people who are especially at risk from infection are clearly described in the Government's published guidelines (link at end) and those people may still be shielding or self-isolating. ALL personnel should consistently adhere to the current national social distancing rules.					
Headteacher name a		Lorna Rourke				
Chair of Governors / Committee name an	Trust / Management d signature:		ck and Claire Goldstone (Co-Chairs) s (Premises, safeguarding and welfare)			
 If you have a concern or query about your risk assessment, please contact the LA's Safety, Health and Wellbeing Advisor at nina.bickerton@suffolk.gov.uk. 						

- Health and Wellbeing Advisor at nina.bickerton@suffolk.gov.uk .
- You should contact your SEO or call 01473 263942 if you would like to discuss your planning.
- For leaders' wellbeing support: **01473 265656** (new phone number) or email:

 $\underline{leadership well being support@suffolk.gov.uk}$

- Any queries on premises issues should be directed to your Property Advisor.
- Please ensure that your most recent risk assessment is available to the local authority should you be
 asked to provide this in the autumn term. You may choose to place your completed risk assessment on
 your school web site as part of your communications around COVID19 security.

What are the hazards or where are the dangers?	Control Measure/Standards checklist These are things which are needed to control the spread of the virus as far as reasonably practicable. This is Public Health advice which schools MUST follow.	Yes they are in place	No they are not in place /NA	Our school needs to add these following control measures to reduce the risk as far as possible, OR this is why we cannot meet this standard:	Action by when and by who?	Additional Action Completed (initials and date)
1.0 Missing a COVID-19 risk assessment review or not continuing with advised control measures	 We have ensured that we have reviewed and revised our last set of risk assessments with relevance to COVID-19. We have acted on any outstanding actions and completed them. We continue to practice Government and PHE hygiene advice as written into our previous C19 risk assessments, and will ensure that we actively seek updated guidance. We communicate any changes of current practice as a result of any COVID-19 related risk assessment, to staff, students and parents alike. We have communicated the findings of all our revised risk assessments, to all staff and offer this to parents and our young people. We have reviewed our child protection policy (DSL) to reflect the return of more students. 	√ √ √		SLT/DSLs reviewing daily as guidance changes. Risk assessment talked through with staff on PD day (Spring) Signage has been reviewed but may need further changes to reflect guidance and to adapt if needed. Tier 4 posters to replace Tier 2. Letters and Home school Agreements are adjusted and will go out in September with any further changes. Emails and Zoom meetings on going. This has been shared with staff in line with updates and children returning to school.
